

Project Design Phase-II

Data Flow Diagram & User Stories

Project: Freelancer Web Application (MERN Stack)

Date	10 April 2026
Team ID	Your Team ID
Project Name	Freelancer Web Application
Maximum Marks	4 Marks

1. Data Flow Diagram (DFD)

A Data Flow Diagram (DFD) represents how data moves through a system. It shows inputs, processes, storage, and outputs. In this project, it explains how freelancers, clients, and admin interact with the MERN-based platform.

DFD Level 0 (Context Diagram)

Entities: Freelancer, Client, Admin

System: Freelancer Web Application

Flow: Users register/login, clients post jobs, freelancers apply, chat occurs, payments processed.

DFD Level 1 (Detailed Processes)

Processes include Authentication, Profile Management, Job Posting, Bidding, Messaging, Payment, Reviews.

Data Stores: Users DB, Jobs DB, Proposals DB, Messages DB, Payments DB, Reviews DB.

2. User Stories

User stories describe system features from user perspective. Each includes role, goal, and expected outcome.

User Type	Epic	US No	User Story	Acceptance Criteria	Priority
Freelancer	Registration	US1	Register account	Access dashboard	High
Freelancer	Login	US2	Login securely	Dashboard visible	High
Freelancer	Profile	US3	Update profile	Saved successfully	High
Freelancer	Apply Job	US4	Submit proposal	Proposal stored	High
Freelancer	Chat	US5	Chat with client	Messages sent	Medium
Client	Registration	US6	Create account	Access dashboard	High
Client	Post Job	US7	Post job	Job listed	High
Client	View Bids	US8	See proposals	List visible	High
Client	Hire	US9	Hire freelancer	Freelancer assigned	High
Client	Payment	US10	Pay securely	Payment success	High
Admin	Manage Users	US11	Control users	Users updated	Medium

Conclusion

The DFD and user stories together define system workflow and user requirements, ensuring proper design and development of the freelancer platform.
